Module 8

Governance and Ethical Leadership
April 11, 2011 - Full Day

Module 9

Problem Solving Techniques/ Strategic Management
April 18, 2011 - Full Day

While it's widely recognized that business literacy is a key competency for lawyers with corporate clients, many lawyers come to the practice of law without any formal business education or experience. Successful lawyers fill in the gaps on their own over time, picking up what they can, where they can.

While that approach may have been sufficient in the past, **today's clients expect more.**

They want legal advisers who not only understand how to solve complex legal problems, but who also understand their businesses, and know the right questions to ask to grasp a business challenge quickly.

The Hennick Centre for Business and Law has developed **The Certificate in Business for Lawyers** to fill the gap for lawyers without formal business education or experience. We've taken the key components of business education and tailored it to what lawyers need to know, in a format that respects the billable hour. The modules are tied together thematically with case studies and a project that reinforces the learning from module-to-module.

Participants will take away a comprehensive understanding of the challenges of business today, and a solid framework for better meeting their clients' needs.

Key benefits - for you, your clients and your organization

- Fill the gaps in your business knowledge
- Better understand your clients' businesses: their strengths, weaknesses, opportunities and challenges
- Learn business approaches to analytical and problem solving skills
- Be better equipped to ask the right questions of current and prospective clients
- Equip yourself to become a leader in your practice area or firm
- Learn to "think like a client" as well as a lawyer
- Provide more practical, valuable legal advice

Who should attend

- Junior to mid-level associates and in-house counsel without formal post-secondary business education who want to better understand their clients' businesses and the business environment

More than ever before, business literacy is essential for lawyers ...

"Bankers, consultants and marketers aren't the only professionals looking to beef up their business skills for competitive advantage. At a growing number of law firms, top attorneys are being trained like business people, using executive education courses designed to strengthen management and business skills."

(Excerpt from the Wall Street Journal)

Now in its second offering, this unique collaboration of the practising Bar and top law and business faculties will deliver key concepts in a stimulating, interactive format. In addition to nine challenging modules of business administration curriculum taught by leading experts, you will tackle a long-term project over the length of the course that will enable you to apply the lessons directly to real-world business scenarios, and receive constructive and detailed feedback on your work.

THE CURRICULUM

MODULE 1

January 24, 2011, 9:00 a.m. - 4:30 p.m.

Introduction

- Objectives and deliverables of the program
- Outline of culminating project, program themes and case studies

Understanding the Canadian Business Environment: Overview and Drill-down into Key Sectors

- Composition and structure of the Canadian economy
- Near and long-term trends affecting the Canadian economy
- Principal sectors in the Canadian economy and their challenges and prospects
- Capital markets
- Contemporary business issues
 - globalization
 - sustainability
 - supplier relations/outsourcing
- Panel discussions (with specific sector focus) on the Canadian business environment and contemporary business issues: what's keeping the CEO awake at night?

MODULE 2

January 25, 2011, 9:00 a.m. - 4:30 p.m.

Managerial and Financial Accounting

- The basic elements of financial statements, including accounting terminology
- The elements of a balance sheet, income statement and statement of cash flows
- The process for analyzing and interpreting financial statements
- Management accounting and its application to the on-going decision-making of a manager
- The concept of Shareholder Value, and performance evaluation measures used by businesses today and those emerging for tomorrow
- Cost behaviour (i.e. variable and fixed costs) and its application towards management decision-making

MODULE 3

January 31, 2011, 7:30 a.m. - 10:30 a.m.

Understanding and Interpreting Financial Statements

- The roles and responsibilities of players in the financial reporting process
- Reading and interpreting public company financial statements
- Off-balance sheet items
- Red flags: why you must read between the lines to be aware of:
 - hidden liabilities
 - possible revenue/asset overstatements
 - understated expenses
- Checklist of financial areas to troubleshoot
- Analyzing how creative accounting affects financial analysis and management decision-making

Insights on forensic accounting from Dr. Al Rosen

- Overview of financial reporting trickery
- Common securities frauds
- How to "cook books"
- Huge gaps in financial statements
- Major Canadian securities litigation involving fake financial reporting

MODULE 4

February 7, 2011, 7:30 a.m. - 10:30 a.m.

Sales & Marketing/Product Strategy and Execution

- What do successful businesses do well?
- What is marketing?
- Why is marketing crucial to business success?
- Understanding the needs of your customer
- Market segmentation: a key pillar in your business success
- How to build a strong brand
- Business innovation: how to succeed at it
- Positioning your brand for competitive advantage
- How to develop a strong marketing plan
- Building a customer-focused business
- Managing customer value for long term relationships

MODULE 5

February 14, 2011, 7:30 a.m. – 10:30 a.m.

Transactional Valuation and Pricing

- Key business contexts in which valuations are required
- The theory and practice of private company valuations for M&A transactions, financing transactions, capital investments and shareholder disputes
- The role of valuation in the public company context, including M&A fairness opinions
- When different valuation approaches are appropriate
- Essential valuation concepts, including internal rates of return and sensitivity analysis

MODULE 6

February 28, 2011, 7:30 a.m. – 10:30 a.m.

Risk Management

- Risk models: moving from theoretical to practical management of risk
- Enterprise risk management: understanding strategic and operational risk structures
- Understanding the effect of organizational patterns and external influences
- The importance of “Alignment” and its cultural impact on the effectiveness of risk management
- Identifying emerging risks

MODULE 7

March 28, 2011, 7:30 a.m. – 10:30 a.m.

Organizational Behaviour/ Change Management

- Managing with new mindsets (reflective, analytic, worldly, collaborative and action)
- Change and change-ability
- Making sense of change drivers: the PESTEL framework
- Living systems – from the rigid to the incubator
- The traps that impede change
- Robust strategies instead of precise tactics during conditions of great uncertainty

MODULE 8

April 11, 2011, 9:00 a.m. – 4:30 p.m.

Governance and Ethical Leadership

- Ethics as a business goal
- Steps to better ethics and corporate governance
- Can ethics be regulated?
- Models of ethical leadership
- Links between ethical leadership and behaviour
- Roles of Boards and Executives
- Evaluating the “tone at the top”
- Ethics and compliance programs
- The responsibilities and pitfalls faced by advisors

“Fireside Chat” with Former President and Chief Executive of the Ontario Teachers’ Pension Plan, Claude R. Lamoureux

MODULE 9

April 18, 2011, 9:00 a.m. – 4:30 p.m.

Problem Solving Techniques/Strategic Management

Problem Solving Techniques

Not all problems are the same, yet we often apply similar methods that draw upon our professional training and stylistic preferences and strengths. This module challenges program participants to apply methods based on their appropriateness to the situation. The first step is learning how to distinguish between different logical levels of problem. With this knowledge, we then look at best practice approaches that fit each of the three unique types of challenge.

- How to distinguish between Decisions, Problems and Dilemmas
- The three barriers to effective problem solving
- The power of framing, and how to use it intentionally to best effect
- The eight common psychological barriers to decision making
- Best practices to addressing decisions, problems and dilemmas

Strategic Management

Participants will approach their own leadership and strategic management skills from both the “inside out” and the “outside in” as they examine:

- What is strategy
- The role strategy and strategic management play in shaping organizational performance
- How successful leaders build a culture of execution and accountability

Final Project Presentation

All participants will apply their learning to present a comprehensive analysis of a company or organization they choose as a client based on its financial health, its opportunities, its strategies and other business practices.

Closing Reception

The Certificate in Business for Lawyers draws on the expertise and experience of leading business and legal experts, including:

Douglas Cumming, J.D./PhD/CFA

Professor Edward J. Waitzer, Jarislowsky Dimma Mooney Chair in Corporate Governance
Osgoode Hall Law School and Schulich School of Business, and Senior Partner, Stikeman Elliott LLP

Director's Message

More than ever, business clients expect timely, relevant and cost-effective advice from their lawyers, whether on large one-time

transactions or day-to-day corporate matters. Where law school is supposed to teach you to "think like a lawyer", this program will increase your effectiveness as a legal adviser by teaching you to "think like a client".

I invite you to enroll in **The Certificate in Business for Lawyers**. By learning the analytical frameworks and "rules of thumb" that your clients use to make business decisions, you'll become a better and more informed adviser to your clients, and you will be better able to tailor your analysis and advice to their needs.

Doug Harris, Vice President and Associate General Counsel, Investment Industry Regulatory Organization of Canada (IIROC)
