## SETTING UP/KNOCKING DOWN ASSET PROTECTION STRUCTURES

Debtors have always been interested in effective shields, just as creditors have sought powerful swords. But today's turbulent business/investment environment has turned up the pressures on both - pressures which are passed on to legal counsel and other professional advisors.

It has never been more important for corporations and individuals to shield their assets from creditors, and for creditors to bring expertise and creativity to bear on their quest to pursue every possible avenue for recovery.

OsgoodePD's unique program, **Setting Up/Knocking Down Asset Protection Structures**, will provide you with a tangible edge in acting for either side. Leading corporate lawyers from Canada and the U.S., commercial litigators, tax and insolvency counsel, and forensic experts will join in a candid discussion of the strengths, weaknesses and risks of various strategies for shielding clients' personal and corporate wealth from creditors and their counsel.

The program will bring together

- The leading and recent law which both business lawyers and commercial litigators must know
- Lessons drawn from the long practical experience of Canadian and U.S. counsel
- Reflections from a distinguished Commercial List judge on what the Court looks for from counsel in assessing whether an asset protection regime should stand or fall
- Guidance on how counsel can address the substantial ethical and professional issues in this contentious area, so as to best meet client needs without compromising one's integrity and reputation

You'll come away with valuable ideas and insights in an area where up-to-date knowledge is crucial.
